Education

National University of Sciences and Technology
Bachelor of Computer Science
2022 - 2026

Coursera

Google IT Automation with Python Specialization Certification
10/2022 - 06/2023

Experience

Intern Web Developer 06/2024 - 08/2024
HCI Expert Pvt Ltd | Islamabad

Developed a landing page for a website in Next.js, updated the design of an existing website, successfully developed two complete websites in React with MUI and deployed one of them on Hostinger.com

Mobile Application Developer 09/2024 - 12/2024
Freelancer.com | Remote

Worked on a mobile application project similar to FoodPanda with features like food delivery, grocery, and weekly specials. The backend was connected to a Hostinger database. The app was made in Java.

Web Developer 09/2022 - 09/2025
Self-Employed | Remote

Learned and applied modern web technologies, including classic HTML/CSS, React.js, MERN stack, and MySQL, by building responsive, user-focused web applications and personal projects.

Data Annotator 07/2025 - 12/2025
Confinality | Remote

Annotated and validated audio files for human voice activity detection and transcribed audio data for improved model training and better annotation labels.
